Hospital Infection Control™
1994 Index

American Hospital Association
holds teleconference on TB, SEP:128
questions cost, scope of CDC TB guidelines, MAR:34

American Lung Association
develops curriculum for TB education, JUL:101

American Thoracic Society
urges use of UV irradiation against TB, JUN:81

Antibiotic resistance
develops rapidly in gram-negative rods, OCT:145
in *Streptococcus pneumoniae* on rise, MAR:41
major pathogens with listed, OCT:135
new drugs no panacea against, OCT:133
spurs development of new drugs, OCT:136
VRE forum held at CDC, AUG:105
VRE recommendations, JUL:91
VRE threatens return to pre-antibiotic era, JUL:89

Association for Professionals in Infection Control and Epidemiology
comments on CDC VRE guidelines, OCT:144
guidelines by for endoscopy, JUN:76
questions CDC TB guidelines, MAY:64
supports recertification of TB masks, JUL:94

Blood exposures
operating room personnel express concern about, JAN:13
surgeons mull occupational risk, APR:55
to health care workers tracked by CDC, SEP:117

Bordetella Pertussis
adults may be reservoir for, NOV:155

Centers for Disease Control and Prevention (see also* MMWR *Update)
answers questions on infection control breaches, FEB:21
begins revision of TB mask guidelines, MAY:61
develops fact sheet on cryptosporidiosis, NOV:157
draft pneumonia guidelines by extend circuit changes, APR:45
guidelines by to prevent Legionnaires' disease, MAY:68
guidelines by to prevent tuberculosis transmission, DEC:161
holds forum on VRE, AUG:105
inundated with comments on TB guidelines, MAR:29
key measures against Legionnaires' disease, MAY:69
nears completion of new isolation system, AUG:107
objectives of health care worker surveillance by, SEP:119
outlines basic asepsis with needles and vials, FEB:19
surveillance system piloted for health care workers, SEP:117

Clostridium difficile
decreased by using disposable thermometers, FEB:25

Cryptosporidium parvum
CDC questions and answers regarding, NOV:157

Endoscopes
APIC guidelines to prevent infection via, JUN:76
APIC recommendations for cleaning, JUN:77
proper disinfection of essential, SEP:124

Environmental Protection Agency
cites sterilant manufacturer, MAR:35

Gowns
wearing may not lower infection rates, DEC:170

Hand washing
prevents spread of enterococci species, DEC:170
proximity of sinks to beds can impact infection rates, FEB:24

Hepatitis
HAV investigation form, JUL:100
HAV outbreak in 14 health care workers, JUL:99
HCV post-exposure prophylaxis unproven, JAN:5
union lobbies for increased HBV, HCV screening, JAN:6

HIV
brothers with may have shared razor, FEB:25
patients with vulnerable to blood stream infections, JUN:83
testing for recommended for transplant recipients, AUG:113
transmission to four surgical patients in Australia, FEB:17

Hospital Infection Control Practices Advisory Committee
nearing completion of new isolation guidelines, JAN:1
prepares alert regarding VRE, JAN:1
recommendations by against nosocomial VRE, JUL:91
recommendations for appropriate use of vancomycin, JUL:92
says HCV post-exposure prophylaxis unproven, JAN:5

Infection Control Consultant *(appears quarterly in January, April, July, and October)*
CDC launches national program on day care infections, JAN:7
CDC questions and answers on Legionnaires' disease, OCT:140
CDC recommendations for prevention of TB in dentistry, APR:52
home and hospice care, JUL:96
infection risks in day care settings, JUL:95
long-term care and consulting, JUL:98
pneumococcal vaccine urged for elderly, OCT:141
Q&A on Consulting column, JAN:9; APR:54; JUL:97; OCT:142
respiratory infections in elderly day care, APR:53
schools targeted for HBV vaccine programs, OCT:141
TB regulations for medical, dental offices, APR:51
TB testing in nursing homes, JUL:96
training more effective on-site, OCT:139

Influenza
many health care workers not immunized against, NOV:156

Need back issues? Call our order department at (800) 688-2421; inside Georgia (404) 262-7436.

Journal Reviews (usually appear monthly. Articles cited in each column are not listed in this index.)
see JAN:13; FEB:27; MAR:42; APR:59; MAY:71; JUN:86; JUL:103; AUG:115; SEP:131; NOV:159

Legionnaires' disease
CDC guidelines to prevent nosocomial, MAY:68
infection control measures against nosocomial, MAY:69

Methicillin-resistant **Staphylococcus aureus**
community-acquired on the rise, OCT:143
measures against VRE similar to those for, JUL:90
patients develop resistance to antimicrobial ointments, DEC:166

MMWR *Update*
biosafety precautions for hantavirus, JUL:102
clinicians urged to determine MDR-TB resistance, AUG:114
drug-resistant *Streptococcus pneumoniae* on rise, MAR:41
emerging infectious diseases, DEC:171
flu vaccine recommended for workers, patients, SEP:129
HCV testing for recipients of immunoglobulin, SEP:130
HIV infected brothers may have shared razor, FEB:25
HIV testing recommended for transplant recipients, AUG:113
lab worker may have inhaled Sabia virus, OCT:148
laparotomy sponges recalled, JAN:15
measles cases drop sharply, JAN:15
outbreaks of *Mycoplasma pneumoniae*, FEB:26
plague cases should be isolated, NOV:158
strategic plan against emerging infections, JUN:84

Multidose vials
CDC recommends precautions, FEB:21

National Institute of Occupational Safety and Health
begins recertification of TB masks, JUL:94

National Nosocomial Infections Surveillance System
compared to new SCOPE program, NOV:149

Needlesticks
reduced by universal precautions, NOV:154

New-product evaluation
committees for should involve front-line workers, SEP:125

Occupational Safety and Health Administration
moves ahead with plans for TB standard, MAR:31
opens rule making for TB standard, APR:58

Operating room
glove beeper devices debated, JUN:73
personnel express concern about blood exposures, JAN:13
surgeons mull risk of bloodborne pathogens, APR:55

Outbreaks
of group A streptococci in a long-term care facility, DEC:168
of *Mycoplasma pneumoniae*, FEB:26
of necrotizing enterocolitis unsolved, AUG:112
of parvovirus B19 on maternity ward, NOV:153
of streptococcal pharyngitis, NOV:152

Pneumonia
CDC draft guidelines for nosocomial, APR:45
CDC nears completion of final guidelines for, SEP:122
hierarchy of recommendations for prevention of, APR:50
pathogenesis of nosocomial, APR:47

Postoperative infections
checklist to detect after discharge, SEP:126
prophylactic antibiotics significantly reduce, AUG:113
vein harvest site variety can cost $11,000 per patient, FEB:24

Pseudomonas fluorescens
albuterol product recalled due to contamination with, MAR:39

Readers Write
surgeon proposes wider use of blunt needles, MAR:40

Respiratory syncytial virus
experimental therapy appears to reduce in infants, JAN:11

Rotavirus
shedding reduced by bacteria, DEC:169

Smallpox virus
scientists debate eradication, MAR:38

Society for Healthcare Epidemiology of America
questions cost, scope of CDC TB guidelines, MAR:34

Surveillance
new SCOPE national program for founded, NOV:149

Tuberculosis
advisory council for elimination of calls for state laws, FEB:22
APIC questions CDC guidelines for, MAY:64
cases drop 5% nationally in 1993, MAY:65
CDC begins revision of mask guidelines, MAY:61
CDC final guidelines on feature lower-risk categories, DEC:161
CDC guidelines on draw thousands of comments, MAR:29
education curriculum for, JUL:101
handling false-positive PPD tests in BCG recipients, DEC:166
hospital recounts outbreak of drug-resistant, JUN:82
OSHA begins to develop standard for, APR:58
pediatric cases of increasing, JUN:78
surveillance for in pediatric hospitals advised, OCT:146
use of UV irradiation against, JUN:81

Universal precautions
compliance with varies little by hospital size, SEP:120
reduce needlesticks, NOV:154
will be changed to standard precautions by CDC, AUG:107

Vancomycin
HICPAC recommendations for appropriate use of, JUL:92

Vancomycin-resistant enterococci (VRE)
CDC holds forum on, AUG:105
HICPAC prepares alert regarding, JAN:1
HICPAC recommendations against nosocomial, JUL:91
measures against difficult to maintain, JUL:93
threaten return to pre-antibiotic era, JUL:89

Visitation polices
for siblings and pets in pediatric hospitals, AUG:108
pet visitation applies to long-term patients, AUG:109
sibling visitation checklist, AUG:111
